## CONTRIBUTING EDITORS

Contributing Editors are the people who take certain sections of the book and physically revise it. Aside from the author and editors, the contributing editors are the next in line for providing critical information and pricing updates. Without these contributors, many sections of this book would be a lot skinnier and we appreciate the time they take to help us out.

## PHOTO ACKNOWLEDGEMENTS

All of the images in this book and on our website would not be possible without the following people's contributions. Many photos are taken at shows, and these dealers are nice enough and allow us to photograph them during the often hectic shows. Other people below have welcomed us to their stores/homes, allowed us to set up shop, and photograph their entire inventory/collection. Also, many thanks to the manufacturers who allow us to use the images they have spent much time and money on in our products.
